

Eagle Research Corporation® designed the Talon™ family specifically to meet the user's needs, providing software modules for both central office and field operations. Talon™ Software Suite provides application solutions for Natural Gas, Water/Wastewater, Environmental Protection, Steam, and Electrical applications. Industrial/Commercial Measurement, Pressure/Temperature Monitoring, Supervisory Control, and Odorization are but a few of the systems that can benefit from the use of this software.

Please contact your sales representative toll-free at **1-877-757-6565** for more information or a quote.

Talon Lite™

- Process Programming
- Master Load Creation & Management
- SCADA & Data Collection System Supporting both Serial & TCP/IP Ports, Incoming & Outgoing.
- Data Trending, Scheduler, & Auto Report
- Includes Circular Charting Capability
- Edit Form Text & Graphics Editor

Talon SCE™

- Single Computer Edition
- SCADA & Data Collection System Supporting both Serial & TCP/IP Ports, Incoming & Outgoing
- Expandable Based on Polling Interval Needs
- Data Trending
- Report & Polling Scheduler
- Multi-Pen Historical Quick Trend Graphing
- Alarm Viewer
- Data Import Utility

Talon Enterprise™

- Client/Server Network Addition
- SCADA & Data Collection System Supporting both Serial & TCP/IP Ports, Incoming & Outgoing
- Expandable Based on Polling Interval Needs
- Multi-Level Passwords
- Advanced Alarming Support
- Multi-Screen Graphics
- System Management Tools
- Process Graphics for Top Level Maps, Charts or System Diagrams
