

This two and half day, virtual instructor-led course, provides the participants the knowledge and skills necessary to use Eagle's standard Volume Correctors, Flow Computers, RtpM Pressure Recorders and Field Manager Software. The training is organized in two parts (diagram on back). First MPplus, XARTU/1, and Power/Communication. Second Power/Communication, ESeries and our new MPplus II.

The virtual class will use **Microsoft Teams platform**. The link will be sent out to registered participants.  
**Equipment needed on the participant side:** High speed internet connection, laptop (to run browser/Microsoft Team in the browser and Field Manager Software), communication cable, unit for hands-on, power adapter.

**If you do not** have a unit/communication cable/power adapter for the hands-on portion of the training, we will loan you one for domestic shipping/handling cost of \$100. Fill out the form on attached we will ship you the unit/communication cable/power adapter prior to the training with return shipping label.

## Deadline to Register is March 29, 2021

### Pre-Training

Optional schedule setup session with the participant to make sure the Field Manager™ and communication is working with unit.
